**Part B State Performance Plan (SPP) and Annual Performance Report (APR)  
Instruction Sheet****I. General Instructions**

Information Collection 1820-0624, *Part B State Performance Plan (SPP) and Annual Performance Report (APR)*, contains both SPP and APR instructions. The instruction sheet is divided into three sections: 1) General Instructions (SPP/APR (1) and SPP/APR (2)); 2) State Performance Plan (SPP Template – Part B (3)); and 3) Annual Performance Report (APR Template – Part B (4)). States are encouraged to make note of the following due dates and implement a development schedule accordingly: 1) By February 1, 2007, States must resubmit an SPP that addresses “New Indicators” and any deficiencies identified in the Office of Special Education Programs’ SPP response letter; and 2) By February 1<sup>st</sup>, beginning in 2007 and continuing through February 1, 2012, States must submit APRs.

When completing the SPP and APR, States will need to use the following parts of Information Collections 1820-0624 and 1820-NEW.

**SPP Materials –**

- SPP Instructions (See Section II below.)
- Part B Indicator/M Measurement Table with Instructions<sup>1</sup>
- For the FFY 2005 (2005-2006) APR, use Table 7 of Information Collection 1820-NEW (*Report of Dispute Resolution Under Part B of the Individuals with Disabilities Education Act*) when addressing the following Monitoring Priority and Indicators: Effective General Supervision Part B / General Supervision, Indicators 16, 17, 18, and 19.

As noted in the conference report to HR 1350, it is Congress’ expectation that SPPs, indicators, and targets will be developed with broad stakeholder input and public dissemination. Therefore, the State was required to provide information in the Overview to State Performance Plan Development to clarify how the State: 1) Obtained ‘broad input’ from stakeholders; and 2) Disseminated the SPP to the public. In the APR, the State is to provide a description of the process the State used to develop the APR. The description must include how and when the State will report annually to the public on the: 1) progress and/or slippage in meeting the ‘measurable and rigorous targets’ found in the SPP; and 2) performance of each local educational agency located in the State on the targets in the SPP.

The *Part B Indicator Measurement Table* lists the Monitoring Priorities and Indicators, required data sources and measurement and instructions for providing the required information for each indicator. In addition to the percentages required in the indicators, States are required to provide actual numbers used in the calculations.<sup>2</sup> In examining data, States are encouraged to use the strategies and questions provided in the *Using Data to Guide Improvement Efforts: Data Analysis* workshop. These questions can be accessed at <http://www.ed.gov/policy/speced/guid/idea/bapr/index.html>

States may add indicators if there are additional areas that the State wishes to track and measure. If additional indicators are added the State is to include a data source, measurement, and calculation

<sup>1</sup> Monitoring Priorities, indicators, and measurements included on the *Part B Indicator Measurement Table* are to be used to populate designated sections of the SPP and APR Templates. Populated templates can be found at <http://www.ed.gov/policy/speced/guid/idea/bapr/index.html>

<sup>2</sup> States are not required to provide the actual numbers if they are using percentages from the 618 data that have been previously calculated and are presented on IDEADATA.org.

for each indicator added. In addition, the State must include targets and data to address its performance against the targets.

States are allowed to use sampling when so indicated on the *Part B Indicator Measurement Table*. When sampling is used, a description of the sampling methodology outlining how the design will yield valid and reliable estimates *must* be submitted to OSEP. The description must describe the: (a) sampling procedures followed (e.g., random/stratified, forms validation); and (b) similarity or differences of the sample to the population of students with disabilities (e.g., how all aspects of the population such as disability category, race, age, gender, etc. will be represented). The description must also include how the State Education Agency addresses any problems with: (1) response rates; (2) missing data; and (3) selection bias.

Samples from local education agencies (LEAs) must be representative of each of the LEAs sampled considering such variables as disability categories, age, race, and gender. If a State chooses to sample LEAs, all LEAs with average daily memberships (ADM) of over 50,000 *must* be included in the sample. States have the option of sampling within some LEAs and using a census (i.e., obtaining data from the total targeted population) in other LEAs. Relative to small districts, the State shall not report to the public or the Secretary any information on performance that would result in the disclosure of personally identifiable information about individual children or where the available data is insufficient to yield statistically reliable information, i.e., numbers are too small.

For indicators that permit sampling, the State must include in its report the most recently available performance data on each LEA and the date the data were obtained. If a State is using sampling for one or more indicators, the State must sample on the performance of each LEA on each of those indicators at least once during the course of the SPP. Further, if a State is using sampling, the State must collect data from a representative sample of LEAs each year in order to report on State performance annually.

To submit an SPP and/or APR:

implemented during the FFY and progress on meeting the targets. If the State did not meet a compliance target, provide information regarding the nature of the continuing noncompliance, improvement activities completed (e.g., review of policies and procedures, technical assistance, training, etc.) and any enforcement actions that were taken. Provide an explanation of performance data in this section, if needed.

### **Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for (Insert FFY):**

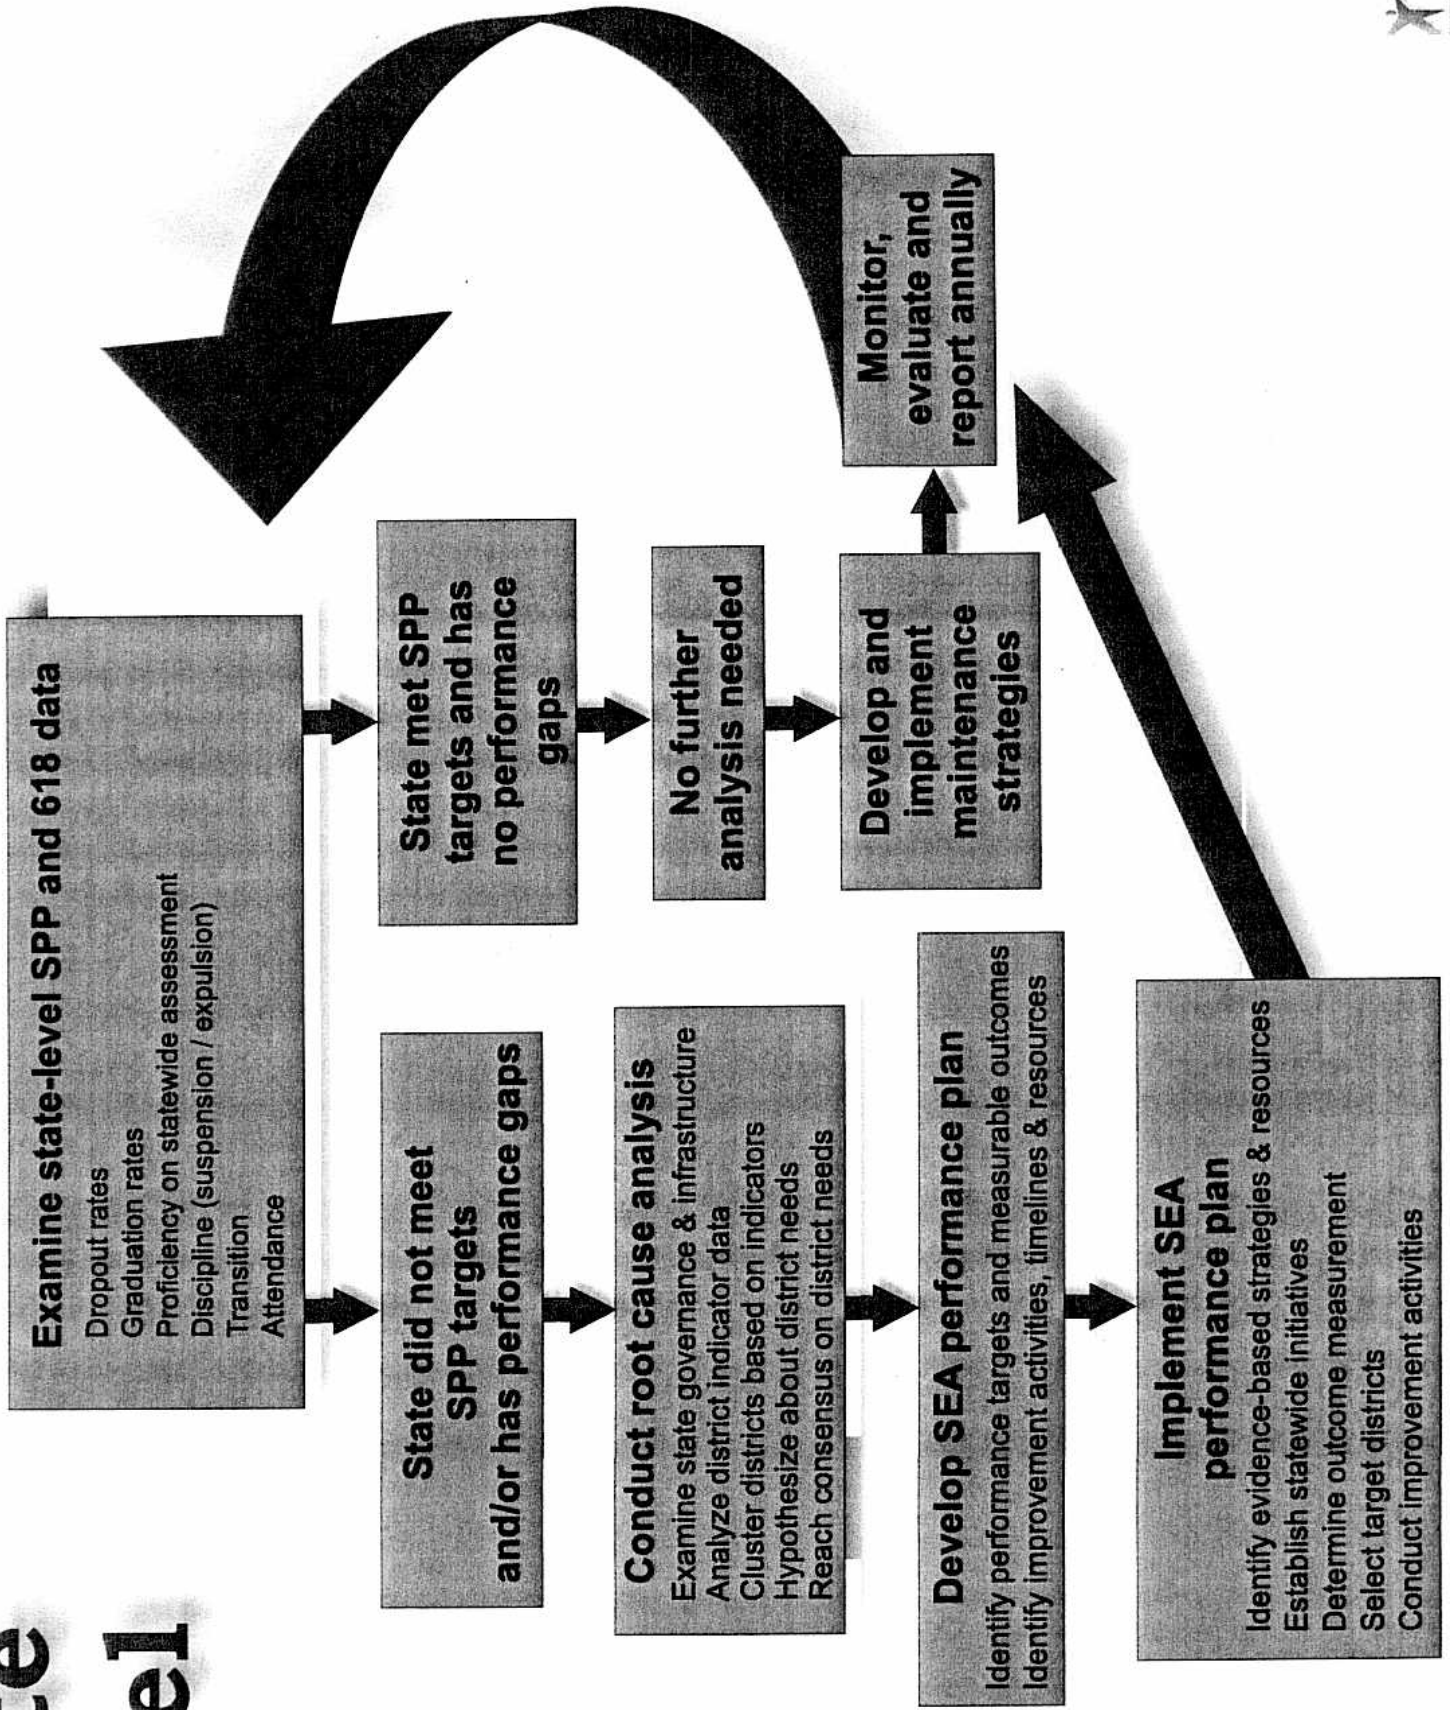

- Provide information on revised targets, activities, timelines or resources. This information should include the State's revisions to the SPP and justification for the revisions. **IV. Related Requirements**

This document includes a list of the Monitoring Priorities and Indicators and the requirements from the statutes and regulations that are related to each Priority and Indicator. The purpose of this document is to inform States of the statutory and/or regulatory requirements related to each Indicator that will be reviewed by OSEP as part of Focused Monitoring. That is, if OSEP determines that it will do Focused Monitoring in a State because that State is low performing or in noncompliance with a specific indicator, OSEP will review the Related Requirements for that Indicator as part of the Focused Monitoring. OSEP encourages States to examine their general supervision systems to determine how they address these Related Requirements.
